

BRYSTON

A Lifetime of Music

MEMO: To All Briston Customers

SUBJECT: Rocky Mountain Audio Fest - October 2018 – Briston Demo

Briston was showing off a fully active Mini T loudspeaker setup.

It was very similar to what they showed in Munich, just with the smaller speaker here versus the Middle T Active that they had in Germany.

These Briston Active systems are always some of the most seamless and resolving 2 channel systems that I come across at shows.

They aren't the most minimalist systems out there, but if you have the space and the desire for elevated sound quality, it's hard to do better.

What surprised me about this particular room was how little the Mini T gave up to the Middle T in the bass department. Bass was potent, deep and tight, very comparable to what I heard in Munich. Keep in mind, much of this is room dependent, but with careful setup, these Active Mini T's will take you quite far.
