

BRYSTON

A Lifetime of Music

MEMO: To All Briston Customers

SUBJECT: Toronto AudioFest 2018 – Briston Demo – TED Magazine

The T-Rex have arrived!

Bryston introduced their new pair of T-REX loudspeakers for the 2018 Toronto Audio Fest !

Do not worry, these colossal active speakers with three voices are very gentle and will transport you into an exciting musical world. The dynamics are superb and the impression of quiet power is there. The stereophonic image is immense, both in width and in height. So, many beautiful listening sessions are in anticipation with this pair of speakers.

The demonstration system consisted entirely of Bryston products: the BDP-3 digital player, the BDA-3 DA converter, the BP-26 preamplifier, the MPS-2 power supply, BAX-1 active filter, BIT-20 isolation transformer, 21B 3 three-channel amplifier (x 2) and T-REX speakers. An entire audio system!
