

**PRESS RELEASE: TO ALL BRYSTON CUSTOMERS
SUBJECT: BRYSTON & ENERGY PRO**

September, 2005

As of October 1st, 2005 Bryston Ltd. will commence to distribute in North America a line of professional nearfield monitors manufactured by Canadian based API International.

**AUDIO PRODUCTS INTERNATIONAL CORP. ENTERS
PRO/COMMERCIAL SOUND MARKET**

Audio Products International Corp, manufacturer of world famous brands Energy, Mirage and Athena Technologies has announced today they will be entering the professional and commercial sound markets under the brand **ENERGY PRO**.

Bryston Ltd., manufacturer of world famous audio amplifiers, will handle the exclusive North American distribution of Energy Pro. The first products created under the new brand will be launched Oct 7-10 2005 at the AES Show in New York City, booth # 636. To manage the business unit, API has employed the services of industry veteran Bill Calma known in the industry as the man who established Tannoy in North America. With more than 25 years experience in the professional and commercial sound markets, Mr. Calma will handle all aspects of launching the brand world wide. Industry veteran Craig Bell, V.P. of Bryston Ltd. will handle all aspects of Energy Pro U.S.
